Success is inevitable. Having the proper tools to be successful is the first key to our success. Having the right attitude is next. In order to help me successful get to know you and your child I have attached a survey that I hope you will take the time to complete. Please return it with your child during the first week of school. Additionally, we know that rigorous reading is a real reality and realized early it reproduces resounding results. Please ensure that your child has a working Library Card. Producing one the first day would be picturesque.
